

TETRA RT-GS21 – Rechargeable Garden Shears, 21V

Rechargeable Garden Shears including 1.5Ah Li-ion Battery and 110–240V Charger, supplied in a plastic carrying case.

Property	Value
Product name	TETRA RT-GS21
Type	Rechargeable Garden Shears (cordless pruning shears)
Rated Voltage	21V
Battery	1.5Ah Li-ion (included)
Charger	110–240V universal charger
Case	Plastic carrying case included
Use	For pruning small branches and shrubs (light to medium garden work)
Weight	Not specified
Blade Material	High-quality steel (assumed)
Safety Features	Safety lock, blade guard (where applicable)
Delivery Contents	Shears, 1.5Ah battery, charger, plastic case

Features & Benefits

- 21V system provides sufficient power for general pruning work.
- Includes battery and charger — ready to use immediately.
- Plastic case protects and stores the tool safely.
- Wide voltage range (110–240V) suitable for international use.
- Li-ion battery technology ensures longer runtime and no memory effect.

Tips & Recommendations

- Check runtime on 1.5Ah battery; suitable for smaller gardens.
- Clean blades after use to maintain cutting performance.
- Store tool and battery in a dry environment.
- Wear gloves and protective eyewear when operating the tool.

Conclusion

The TETRA RT-GS21 is a convenient and efficient cordless garden shear ideal for light to medium pruning tasks. Delivered as a complete set with battery, charger, and carrying case — perfect for home garden use.
