TDS Sheet - TETRA FC-501, Pneumatic Flux Chipper, 2700 rpm, square connection, IMPA 590531

Product identification

- **Product name:** TETRA FC-501 Pneumatic Flux Chipper
- **IMPA No.:** 590531
- **Brand:** TETRA
- **Product type:** Pneumatic hand tool

Product description

The TETRA FC-501 Pneumatic Flux Chipper is a robust and reliable pneumatic tool designed for efficient removal of welding slag, flux, rust and surface residues.

It is suitable for use in shipyards, offshore platforms, industrial workshops and maintenance applications, where durability and consistent performance are required.

Technical specifications

Specification	Value
Operating type	Pneumatic
Operating speed	2700 rpm
Connection type	Square connection
Chisel type	Special square chisel
Air supply	Compressed air
Application	Flux & slag removal
Operating position	Handheld
Construction	Heavy-duty metal housing

Applications

- Welding slag removal
- Flux chipping
- Rust and surface residue removal
- Shipbuilding and ship repair
- Offshore maintenance
- Industrial fabrication workshops

Key features

- Heavy-duty pneumatic design
- Reliable performance in harsh environments
- Suitable for continuous industrial use
- Square connection for secure chisel mounting
- Low maintenance construction

Safety & compliance

- Designed in accordance with applicable Machinery Directive 2006/42/EC
- Use with appropriate PPE (eye, hearing and hand protection)
- Refer to Safety Data Sheet (SDS) for safety information

Packaging & logistics

- **Unit of sale:** 1 piece
- **Packaging:** Industrial packaging
- **Country of origin:** On request

Additional information

- Compressed air quality should be clean and dry
- Regular lubrication recommended for extended service life
- Spare parts and accessories available on request

Disclaimer

The information provided in this Technical Data Sheet is based on current knowledge and is intended for guidance only. Specifications may be subject to change without prior notice.
