

Hand Cleaning Creme Extreme (1 Lt)

TECHNICAL DATA SHEET

Art.No : W 140 629

Description:

Hand Cleaning Creme Extreme is a powerful creamy, alkali-,solvent- and silicon free hand cleaner which is specially developed for removing effective removal of especially stubborn soils such as oil-based paints, lacquers, resins and adhesives. *Hand Cleaning Creme Extreme* is a beige like, slightly perfumed suspension containing ester-based solvent and a natural oil for outstanding cleansing action combined with proven skin compatibility. This addition of esters in combination with the natural oil makes the hand cleaner more skin friendly than a hand cleaner which is based on common hydrocarbon solvents. The product does not contain environmentally damaging micro plastic scrubs and is relatively low odour perfumed for a wide customer acceptance. The scrubs in the product are rounded non irritating plant based scrubs. The product does not clog the drains. The product is dermatologically tested. The product complies with the European Cosmetic Regulation 1223-2009.

Application:

Hand Cleaning Creme Extreme for intensive hand and skin cleaning after extremely soiling work. Specially developed for removing paint, oil based paint, acrylic paints, varnish (e.g. two-component varnishes), special adhesives, PU adhesive, resin, printing ink, fats, oils, additives, lubricants, lacquer etc. Due to the addition of the natural oil, also oils and grease is easy to remove from the skin. The hand cleaner is ideal for use in body repair shops, garages, paint workshops and printing industries.

Method to use:

Hand Cleaning Creme Extreme is used on slightly wetted hands or directly on even dry hands. Rub a small quantity into hands, add some water when needed and wash your hands until all the dirt has loosened from the skin. After rubbing in the hand cleaner, rinse thoroughly with water and dry the hands gently.

By handling chemicals and other damaging pollutions which form a risk to the skin a barrier cream before work is advised. After working with skin damaging pollutions the hands have to be cleaned thoroughly first and then a gentle hand cream has to be used.

Typical Properties:

Appearance:	viscous paste
Colour:	beige
Odour:	pleasant
pH Value at 20 °C:	~ 5
Specific gravity at 20 °C:	~ 1,0 g/cm ³
Shelf life/ storage:	24 Months , 5 – 25 °C, frost-free, best at 20°C, dry and closed

Ingredients:

Aqua
Dimethyl Glutarate
Sodium Laureth Sulfate
Zea Mays Cob Meal
Sodium Chloride
Brassica Campestris Seed Oil
Dimethyl Succinate
Stearalkonium Bentonite
Dimethyl Adipate
Phenoxyethanol
Dodecylbenzene Sulfonic Acid
Xanthan Gum
Parfum
Sodium Sulfate
CI77891
Silica
Ethylhexylglycerin
Benzyl Alcohol
Methylchloroisothiazolinone
Methylisothiazolinone

Availability:

The product is available in 350 ml tubes, 1 Liter, 3 Liter, 4 Liter cans and 5 Liter, 10 liter, 30 Liter buckets.
The product is not available for "Soft Bottle" dispensing systems.

Remark:

Before using or further distribution of this product, we expect that you are known with the contents of the Safety data sheets (through 1907/2006/EG, Art.31)

Because of the natural plant based scrubs the product can change in odour after a certain time. Besides on the surface a small amount of skin refatting natural oil can occur after a while, which comes from the oil in the scrubbing agent. This will not influence the product in a negative way and after shaking the packaging the product is a homogeneous Handcleaner again.
